APPIA Life.

Appia Life is created based on the success of the Appia. With its high productivity and high performance, this machine is appreciated by thousands of coffee shop worldwide.

A GUARANTEE OF SUCCESS

THE IDEAL MACHINE THAT EASILY AND SIMPLY PREPARES GREAT DRINKS

Appia Life has been studied for those who want a simple and trustworthy machine. It is the perfect coffee machine for large companies, coffee shop chains or wherever there is a need to prepare an abundance of great coffee and to be cost-effective.

Appia life is the coffee machine with which young talents become professional baristas; it is the machine that coffee shop chains handle every day to easily and quickly prepare coffees and cappuccinos. It is the means to make an excellent drink, and anyone can use it.

It is called **Appia Life** because it is the coffee machine for life:
it never abandons you!

PRODUCTIVITY & CONSISTENCY

PRODUCTIVITY & CONSISTENCY

UP TO 250 CAPPUCCINOS*

Appia Life guarantees high daily productivity and an even more consistent result in the cup.

The **SIS SYSTEM** optimizes the extraction and compensates any tamping errors so that it reduces waste and makes regularly perfect coffees.

The significant variation of the machine is the introduction of the **EASY CREAM TECHNOLOGY** that allows the automatic frothing of the milk. The double wand froths the milk and stops just as it reaches the preset temperature.

... IN A SIMPLE AND FAST WAY

APPIA
Life.

SOFT INFUSION SYSTEM

Problem

- Uneven and under-extracted coffee

Solution

- Soft increase of water pressure

Benefits

- Maximum extraction efficiency
- Prevent channeling

EASY CREAM

Problem

- Low skilled barista
- Delivery large amounts of cappuccino

Solution

- Auto-steamer with air-steam compressor
- Adjustable temperature probe
- Vortex generator nozzle

Benefits

- Consistent high-quality froth
- Flexibility in preparing different type of cream
- Faster preparation

**ENERGY SAVING &
COST EFFECTIVE**

ENERGY SAVING

-13% ENERGY CONSUMPTION

The **boiler** of the Appia Life has **DRYTEX THERMAL technology insulation** that **reduces 13% of energy consumption** compared to the Appia II, and it comes as standard series in the whole range of the machine.

Appia Life guarantees a **20% reduction in environmental impact**. The LCA (Life Cycle Assessment) analysis confirms that the Appia Life with its new thermal system, new materials, and general optimization of the mechanical components, has 20% less environmental impact compared to the Appia II.

-20% ENVIRONMENTAL IMPACT

DRYTEX MATERIAL

To insulate the boiler, we chose to use the innovative Drytex material. It is made of a combination of hygroscopic fibers capable of offering excellent thermal insulation and increase the performance of the product.

The material is the same used on sports apparel; the special Drytex fabric has sockets that trap the air, thus guaranteeing isolation.

INSULATED BOILER

Problem

- Heat dispersion
- High energy consumption

Solution

- Innovative insulating material

Benefits

- -13% electric energy consumption

ERGONOMICS

ERGONOMICS

GREAT COMFORT MEANS...

We believe that in Nuova Simonelli, the best way to reach excellence is to increase simplicity and make user-friendly products. Our positive approach has always pushed us to improve and study the best way to facilitate the barista in his job.

Appia Life makes productivity even more efficient thanks to its ergonomic style, improving the service speed, and assisting the barista in day-to-day performances.

... HAPPY BARISTAS

ERGONOMICS FEATURES

REVERSE MIRROR

This feature allows the barista to check the coffee dripping and cleanliness of the filter holder from a much more comfortable position.

ALIGNED CUP WARMER

The cup warmer is aligned with the top of the machine. Thanks to this feature, the user has a more comfortable reach and speeds up the working process.

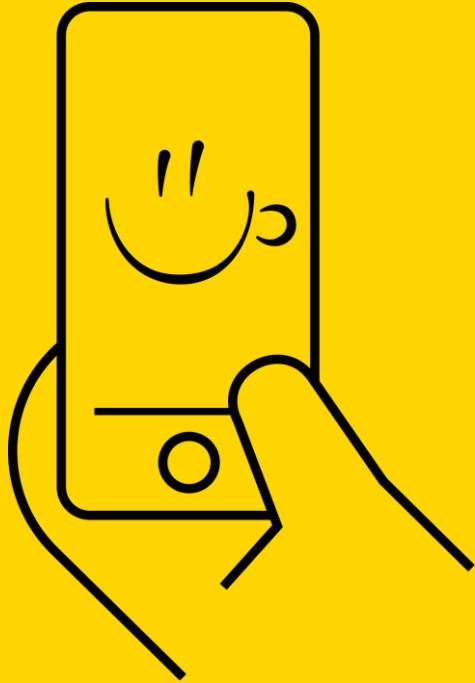

PUSH BUTTON PANEL

The push-button panel has been re-created to be user friendly and more resistant in the long run.

EASY MAINTENANCE

Appia Life has been designed to be more efficient when it comes to maintenance. The complete new style of the machine facilitates the user in any operations routine. Its new adjustable nozzle attachment, new side opening system and redesigned groups, are all features that allow it to be majorly efficient.

**EVEN MORE
ADVANCED**

TFT DISPLAY

The new XT version completes the Appia Life machines family, available in 2 and 3 groups in the volumetric version (5 dispensing keys per group). The performance remains unchanged compared to the 2 and 3 group Appia Life models, but the Appia Life XT has evolved in the form and in the innovative details that improve the final results.

DISPLAY 1,5" (22X42mm) features:

Note: display not touch

- DOSE PROGRAM
- CLEANING
- COUNTERS
- DISPLAY AND BUTTONS
- SETTINGS
- PRESSURE SENSORS

TFT DISPLAY

POSSIBILITY TO SET ITEMS MANUALLY OR BY DISPLAY

TFT DISPLAY

Dose Program

- Brew time
- Temporized cup-warmer

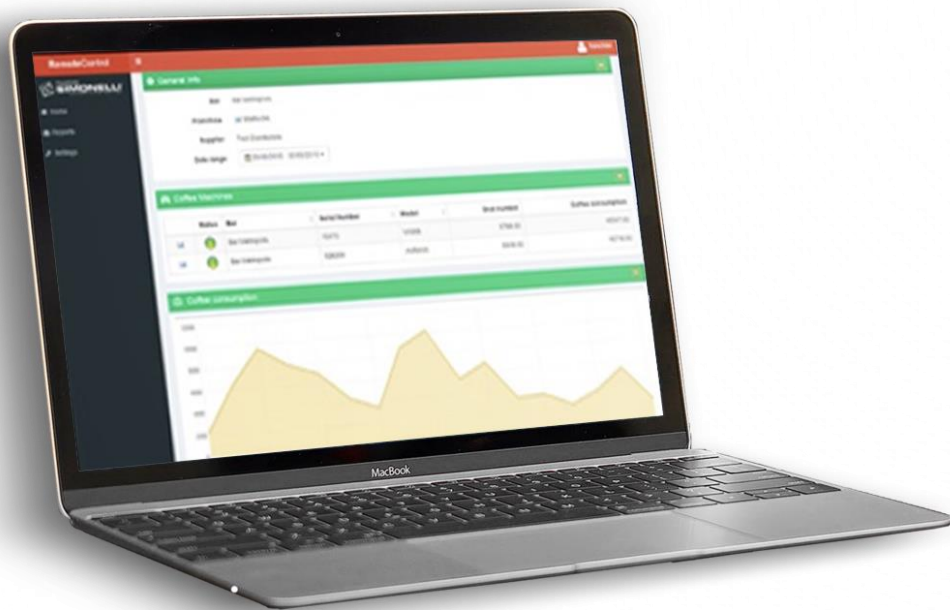

Counters

- Counters for single item
- Total counters
- Reset

REMOTE CONTROL

The remote control function is one of the newest features of Appia Life. It helps the user control and manage the machine from a remote device.

Problem

- Collect information about several outlets

Solution

- Wi-Fi, cloud-based data transmission of real time information

Benefits

- Control risk of mechanical breakdown
- Report on outlet performance
- Analysis of operational information

NEW DESIGN

The Appia Life empowers a stronger connection between machine and barista. The new stylish design allows the coffee machine to be suitable for any arrangement.

With the edition of two chrome bands wrapped around the rear panel, the machine radiates a serene fascination.
